What is	?
is simply dummy text of the printing and typesetting industry. Industry's standard dummy text ever since the 1500s, when an unknown printer too and scrambled it to make a type specimen book. It has survived not only five centurinto electronic typesetting, remaining essentially unchanged. It was popularised in the release of Letraset sheets containing passages, and more recently with describing the Aldus PageMaker including versions of passages.	ok a galley of type ies, but also the leap the 1960s with the
Where does it come from?	
Contrary to popular belief, is not simply random text. It has roots in a piece Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Lat Hampden-Sydney College in Virginia, looked up one of the more obscure Latin word a passage, and going through the cites of the word in classical literature, d undoubtable source. Comes from sections 1.10.32 and 1.10.33 of "de Finib Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a theory of ethics, very popular during the Renaissance. The first line of sit amet", comes from a line in section 1.10.32.	in professor at Is, consectetur, from Iiscovere d the ous Bonorum et a treatise on the
The standard chunk of used since the 1500s is reproduced below for those Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are a their exact original form, accompanied by English versions from the 1914 translation	also reproduced in
Why do we use it?	
It is a long established fact that a reade <u>r will be distracted</u> by the readable content of	rmal distribution of le English. Many Ilt model text, ious versions have
Where can I get some?	
There are many variations of passages of available, but the majority have salteration in some form, by injected humour, or randomised words which don't look believable. If you are going to use a passage of selection, you need to be sure there embarrassing hidden in the middle of text. All the selection generators on the Interrepeat predefined chunks as necessary, making this the first true generator on the lidictionary of over 200 Latin words, combined with a handful of model sentence structure which looks reasonable. The generated is therefore always for repetition, injected humour, or non-characteristic words etc.	k even slightly isn't anything n et tend to nternet. It uses a uctures, to generate
